HONGKONA. MARCH 7TH 1985.

Some occurrences which have recently taken place in connection, with Coroner's inquests in Hongkong have excited no little attention, and seem to point to the necessity for some alteration in the law on the subject." A few months ago a Bill was introduced at Singapore providing that the Coroner may hold an inquest by himself, summoning a jury only in difficult cases where he thinks their assistance necessary. Commenting on this Bill at the time, we suggested that a similar measure might with advantage be introduced in Hongkong, and, further, that the necessity of viewing the body might also present an inquest can be held only super. visum corporis, and, if interment has taken place, the body has to be exhumed for the purpose of being viewed by the jurors. However! much this course may commend itself ance with law, and the proceedings were therefore illegal. Another case which attracted some attention was that of the inquest on the body of ALLI MAHOMED REHE-MALLY, the Indian murdered in Lyndhurst Terrace. In this case Mr. Wodenous apinstructed the jury to find a verdict on the Capital." the evidence before them, the result being that a verdict of murder against some person or persons unkn was returned, and this although at the time a man was in custody \_that he was the guilty party. therefore the system of attempting to arrest gamblers ought to be done away with. That the laws relating to gambling are susceptible of great improvement we know, but we fail to follow the argument of Mr. Wonenoves. It would be impossible, of course, to regulate by Ordinance the view Coroner might take in any particular case, but we think a Bill to amend the general law relating to Coroner's inquests might be States. introduced with great advantage. The two points we would chiefly insist on are that the Coroner might hold an inquiry without a. jury in cases where he does not think the assistance of a jury necessary, and that the obligation to view the body should b abolished. For the consideration of the Executive we would further suggest that if inquests are to be held at the Mortuary some suitable room in which to hold them should be provided. Some small fee, say a dollar, forces. should also be paid to jurors, who at present, in addition to having to serve on these unpleasant inquiries, are put to expense for chair bire. In England a small fee is paid to Coroner's jurors, varying in different the autograph signature of places from 9d. to 1s., though they are selled and Perrise on a red done put to any expense for travelling, while Proprietors, Worcoster; and in this Colony they often pay as much as a dollar for chair hire.
